REPORT

2022 DIFA World Deaf Veteran +40 Futsal Championship

A significant sporting event has ended - the 2022 DIFA World Deaf Veteran +40 Futsal Championship in Poland (Warsaw) in Poland. Initially, 24 teams from different countries were planned to participate in the championship, but, unfortunately, only 8 teams were able to come.

Six days of the big futsal holiday flew by like one day ! Grandiose, unpredictable, filled with the most vivid emotions. This tournament, which was hosted by the Polish country for the first time, has already become history. The highlight of the World Cup was the final and closing ceremony in Warsaw. Hungary takes away the coveted cup. The long-awaited event that Hungarian football fans have been waiting for ! This is how overwhelming joy sounds when the voice is already hoarse! Then it remains only to sing about your country and your victory !

Great Hungarian team - World Champions for at least two whole years! This is great. The Ukrainian team has been a World Cup favorite from the very beginning. In futsal, of course, there is a place for a miracle, and Ukrainian fans believed in a miracle until the final whistle. But on this day luck accompanied Hungary. The game, which was held with an abundance of goals scored, became the crown of one of the most unusual world championships, where the leaders showed a cool and fighting futsal.

The match turned out to be magnificent and dramatic and ended with the removal of the World Cup on the field. The players of both teams have tears of joy and tears of defeat. The World Cup was presented by the President of the Polish Deaf Sports Association Mr. Wojciech Stempurski together with the President of DIFA Iakov Frenkel. At the 2022 DIFA World Deaf Veteran +40 Futsal Championship in Poland, a high level of play was shown, and everyone who touched it noted the sporty atmosphere of the holiday. Poland hosted not just a tournament, but a world futsal festival !

We can be proud of how we, together with the Polish Deaf Sports Association, organized this Cup. Organizational issues were resolved smoothly and promptly, there was a wonderful atmosphere of a futsal holiday. We would like to thank TD Brice Allain and TD assistant Turki Ali for their excellent work. Every day the TD inspector prepared a report and the results of the games were reported.

We made it for all sports lovers all over the world. And we succeeded, it turned out to be a grand event !

The event was held at a high level thanks to the leadership of DIFA, the Polish Deaf Sports Association, the Warsaw City Hall, the media and volunteers. And, of course, we cannot but say a word of gratitude to our guests - foreign tourists, foreign fans. They showed the best qualities of Deaf sports and football lovers, they showed that sport is out of politics and football can unite people.

The participants of the championship got acquainted with Polish culture, cities, people, and this is the result. It's a bit sad that the futsal festival has come to an end.

It was very cool here. "I have a message for the Polish people, a message from the bottom of my heart: a wonderful dream has come to an end, it's time to return to reality, but we will never forget you and your sincerity," Iakov Frenkel said.

It is especially worth noting that the players showed the character and quality of the game, they fought to the end, and this is the most important thing, for which we must be grateful to them and must definitely support them.

The winning team from Hungary will take home the coveted World Cup.

See you again in 2024 !
